

# AMTC2 The 2nd International Symposium on Advanced Microscopy and Theoretical Calculations

## Associated Conference

### Pre-Workshop

The 3rd Theory Meets Industry International Workshop (TMI2009) will be held from November 11 to 13, 2009, at the Nagoya International Center (NIC). During this workshop, leading researchers in the field of computational materials science from both academia and industry will give presentations on the latest software and its application. The future of computational materials science will be surveyed through active discussions. People interested in the development of state-of-the-art techniques in computational materials science, including those planning to employ these techniques in industry, are strongly encouraged to join this workshop. Attendance is free.

Web site: <http://jecs.org/tmi2009>

Dates: November 11 - 13, 2009  
Venue: Nagoya International Center (NIC), Nagoya, Japan

### Associated conference

The 13th International Conference on Intergranular and Interphase Boundaries (iib2010; JIMIC-7)

This international conference will be held as a satellite conference of AMTC2 from June 27 to July 2, 2010, at Ise City in Mie Prefecture. The conference has a long history and focuses on topics related to the structure, properties and processing of grain boundaries and interfaces in materials.

Web site: <http://jecs.org/iib2010/>

Dates: June 27 - July 2, 2010  
Venue: Shima Kanko Hotel THE CLASSIC, Ise City, Japan
